Progressive design language needs no translation.

Bringing the vision of the revolutionary Audi design language to the road: the new Audi A7 Sportback. A futuristic manifestation of sportiness and elegance. Impressively accentuated through classic quattro architecture. Proof that part of staying true to yourself is being prepared to change.

Design and functionality cast in a whole new light. As standard with virtually maintenance-free full-LED headlights and continuous light strip on the rear. On request with innovative HD Matrix LED headlights with Audi laser light including the dynamic light presentation of the coming home/leaving home function. Ensuring that the beginning and end of each trip are as impressive as the drive itself.

New light requires new sources.

See and be seen. The basis for driving safely at night. With powerful support from the new optional HD Matrix LED headlights with variable light control. Turning individual light segments on or off greatly enhances illumination of the road. High definition and virtually glare free. On request with the new Audi laser light. The innovative light source for outstanding range and improved visibility, even at high speed.

Getting feedback can be a step forward.

A revolutionary operating concept awaits you in the new Audi A7 Sportback: MMI touch response. Fewer buttons, more convenience. An easy and intuitive way to control infotainment and convenience functions – just like on your smartphone. Thanks to haptic feedback that means you don't have to take your eyes off the road. And on request with MMI navigation plus including an overview of a wealth of key vehicle information and functions displayed on a 10.1-inch touchscreen and in the Audi virtual cockpit with high-resolution 3D map representation on a brilliant 12.3-inch display.

Intuition is not something you learn.

There's almost nothing more intuitive than the spoken word. In the new Audi A7 Sportback, you have the option of using this simple device to operate the MMI. Thanks to the optional natural language interaction – a language assistant that listens to you, answers you and carries out certain vehicle functions. Without having to define prescribed terms and in everyday speech.

Setting the pace for space.

Welcome to an atmosphere that's all about light, space and loving attention to detail. Enjoy a space that is both playground and refuge. Even when you're not the one behind the wheel.

The best visions are already taking shape.

A vehicle that is redefining benchmarks across the board. And one that fascinates at first glance thanks to a new design language. Impressing with dynamism and efficiency. Ushering in a new era with progressive technologies, a revolutionary operating concept and digital connectivity. The new Audi A7 Sportback – Vorsprung durch Technik designed for the mobility of the future.

Audi is more.

Audi intelligent technologies.

The next step towards achieving our vision of piloted driving. In the new Audi A7 Sportback, you can experience the mobility of the future today. With the option of advanced assist systems and helpful automated driving functions. For even more convenience. And that fascinating feeling of having been transported to the future.

The figures for fuel consumption and CO_2 emissions can be found on page 56. Some of the equipment illustrated or described is optional equipment for which an extra charge is made. Please contact your Audi partner or visit www.audi.com for detailed information about standard and optional equipment.

Please note: The systems work only within system limits and assist the driver. However, the driver remains responsible for driving the vehicle and is required to be attentive at all times.

Delegating leaves more time for what's really important.

Anticipation – one of the most effective skills to ensure a safe and relaxed drive. One job that you can sometimes leave to the most recent generation of optional driver assistance systems. To stay in lane or to maintain speed or distance in tight throughways such as motorway roadworks. Enlist the support of the adaptive drive assist including speed limiter, efficiency assist, collision avoidance assist and turn assist. Even on narrowed lanes, thanks to assisted lane guidance provided by bottleneck assist.

Please note: The systems work only within system limits and assist the driver.
However, the driver remains responsible for driving the vehicle and is required to be attentive at all times.

A smooth operator.

Vehicle functions and infotainment at their best. Confidently managed in the simplest way possible. Thanks to operation that is so intuitive that you hardly know it's there. So you can focus your attention on the joy of driving the new Audi A7 Sportback.

The figures for fuel consumption and CO_2 emissions can be found on page 56.

01 Audi virtual cockpit with 12.3-inch colour display including presentation of navigation map

02 Control buttons in black glass look with proximity sensors and haptic feedback, including extended aluminium look

03 MMI navigation plus with MMI touch response for fast, intuitive operation

Comfort broadens its horizons.

Feeling comfortable while on the move is a question of atmosphere. In the new Audi A7 Sportback, you call the shots. For instance by choosing the optional panoramic glass sunroof, which combines a light and friendly atmosphere with the feeling of increased space. Or go for the optional air quality package, comprising ioniser and scent delivery, for superb air quality in the interior. You may also opt for the 4-zone deluxe automatic air conditioning to give each seat its own custom climate. Fast and efficient, thanks to personalisation, occupant recognition and sensor-based intelligent control.

Please contact your Audi partner or visit www.audi.com for detailed information about standard and optional equipment.

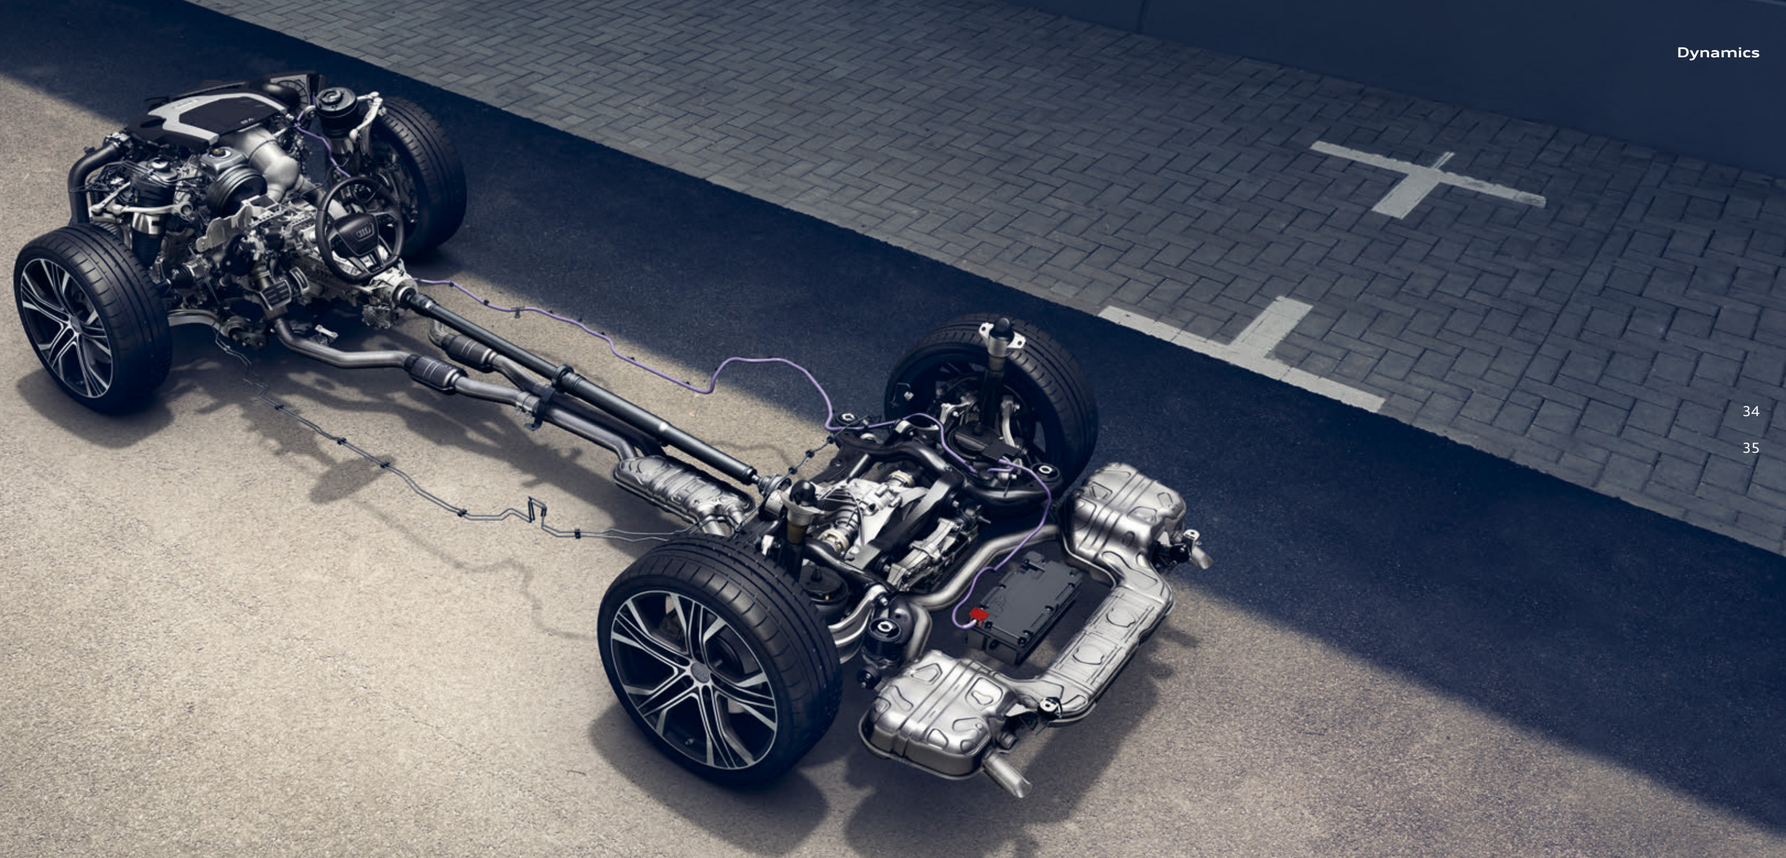
Forwards is the only direction that counts.

The performance of a sports car combined with attitude of a luxury saloon. Experience just how comfortable forward thrust can be. Thanks to the optional suspension including damper control with electronic adjustment for a variety of driving situations, or the outstanding comfort and self-levelling of the adaptive air suspension. For a sporty driving style, the quattro drive provides thrilling dynamics, high-precision handling and superb directional stability on virtually any terrain. And the S tronic 7-speed dual-clutch transmission offers fast gear changes with no perceptible break in propulsive power.

The figures for fuel consumption and CO_2 emissions can be found on page 56. Some of the equipment illustrated or described is optional equipment for which an extra charge is made. Please contact your Audi partner or visit www.audi.com for detailed information about standard and optional equipment.



Short breaks result in new drive.

Dynamics and efficiency. Two virtues that dovetail perfectly in the new Audi A7 Sportback. Made possible by efficiency measures including lightweight design, efficiency assist and the innovative mild-hybrid technology – all features of the new Audi A7 Sportback. In combination with the combustion engine, the mild-hybrid system uses recuperation to obtain electrical energy that can then be stored and used in certain driving situations. To deliver an additional power boost, for instance, or for emissions-free driving in coasting mode.

The figures for fuel consumption and CO_2 emissions can be found on page 56. Some of the equipment illustrated or described is optional equipment for which an extra charge is made. The figures for fuel consumption and CO_2 emissions can be found on page 56.

Model	A7 Sportback 55 TFSI quattro (250 kW)
Engine type	V6 petrol engine with direct fuel injection, Mild Hybrid Electric Vehicle (MHEV)
Displacement in cc (valves per cylinder)	2,995 (4)
Max. output[1] in kW at rpm	250/5,000–6,400
Max. torque in Nm at rpm	500/1,370–4,500
Power transmission	
Drive type	quattro permanent all-wheel drive
Transmission type	7-speed S tronic
Weights/capacities	
Unladen weight[2] in kg	1,890
Gross vehicle weight in kg	2,470
Permissible roof load limit/ nose weight in kg	90/95
Trailer load limit[3] in kg unbraked 12 % gradient 8 % gradient	750 2,000 2,000
Fuel tank capacity, approx. in l	63
Performance/consumption[4]	
Top speed in km/h	250[5]
Acceleration 0–100 km/h in s	5.3
Fuel grade	Sulphur-free super RON 95[6]
Fuel consumption[7,8] in l/100 km urban extra-urban combined	 9.3–9.1 5.9–5.4 7.2–6.8
CO_2 emissions[7,8] in g/km combined	 163–154
Emission standard	EU6

Explanatory notes

[1] The figure given was calculated using the specified measuring procedure (current version of UN-R 85).

[2] Unladen vehicle weight includes driver (75 kg) and fuel tank 90 % full, calculated in accordance with the current version of Reg. (EU) 1230/2012. Optional equipment may increase the car's unladen weight and drag coefficient, whereupon the possible payload limit and the top speed will be reduced accordingly.

[3] The engine's power output always decreases with increasing altitude. At 1,000 m above sea level, and for every additional 1,000 m, deduct 10 % from the weight of the outfit (trailer load limit + gross weight of the towing vehicle). Figure for trailer load limit applies to factory-fitted trailer towing hitch. If using the vehicle with a trailer towing hitch for commercial purposes, a digital tachograph may be required under certain conditions.

[4] Fuel consumption and CO_2 emission figures given in ranges depend on the tyre/wheel sets used.

[5] Regulated.

[6] We recommend using sulphur-free super unleaded RON 95 fuel complying with DIN EN 228. If this is not available, use sulphur-free regular unleaded RON 91 fuel complying with DIN EN 228; power output will be slightly reduced. Unleaded RON 95 fuel with a maximum ethanol content of 10 % (E10) can generally be used. Fuel consumption details refer to operation with RON 95 fuel complying with 692/2008/EC.

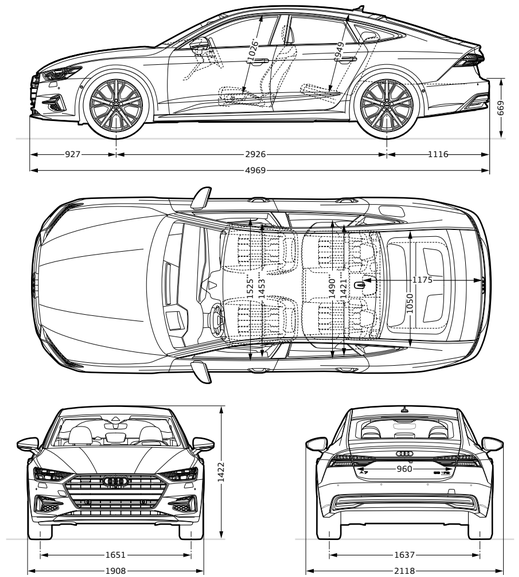
[7] The figures given were calculated using the specified measuring procedures. The figures do not refer to one individual vehicle and do not form part of any offer, but rather should be used purely for purposes of comparison between the different vehicle models.

[8] A vehicle's fuel consumption and CO_2 emissions depend not just on how efficiently the vehicle uses the fuel, but are also influenced by driving behaviour and other non-technical factors. CO_2 is the greenhouse gas primarily responsible for global warming.

Audi A7 Sportback

Dimensions in mm

Dimensions are for unladen vehicle weight. Luggage capacity[1] 535/1,390 l
(second value is with the rear seat backrest folded down and vehicle loaded up to roof height).
Turning circle approximately 12.2 m *Maximum headroom. **Elbow room width. ***Shoulder room width.



Classifications of tyre parameters

The table shows the range of fuel efficiency, wet grip and exterior noise emission classes for the different tyre sizes of the Audi A7 Sportback.

	Tyre size	Fuel efficiency class	Wet grip class	Exterior noise emission class
Summer tyres	205/65 R 17	B	B	71
	225/55 R 18	B–A	A	72–68
	245/45 R 19	B	A	70
	255/40 R 20	C	B–A	71–70
	255/35 R 21	C–B	B–A	72–70
Winter tyres	225/55 R 18	C	B	69
	245/45 R 19	C	B	70–69
	255/40 R 20	C	B	71–69
All-season tyres	225/55 R 18	B	A	69

It is not possible to order a specific tyre.
Ask your Audi partner about the range of tyres available in your country.

Important note

Special information about the wheels: Wheels with gloss turned or gloss milled finish as well as polished or partly polished aluminium wheels must not be used in wintry road conditions. For manufacturing reasons, the rim surface does not have sufficient corrosion protection for such use and can be damaged permanently by road salt or similar.

Equipment for the Audi A7 Sportback illustrated (p. 2–33):
Paint finish: Triton blue, metallic
Wheels: forged aluminium wheels in 5-V-spoke star design, contrasting grey, partly polished[2]
Seat upholstery: customised contour seats, front in perforated Valcona leather, juniper grey with contrasting stitching in rock grey
Inlays: Aluminium fragment

The figures for fuel consumption and CO_2 emissions can be found on page 56.

[1] Technical specifications refer to a basic vehicle without country-specific features and the selected optional equipment. [2] Please note the special information relating to wheels on this page.
